

KPI Ninja by Health Catalyst™

Helping HIEs transition from transactional data intermediaries to population health enablers

KPI Ninja by Health Catalyst brings stability to HIEs with a cloud-native interoperability platform that makes data-driven healthcare a reality. More than 12 Health Information Exchange clients trust our expertise in managing over ~80 million patient lives.

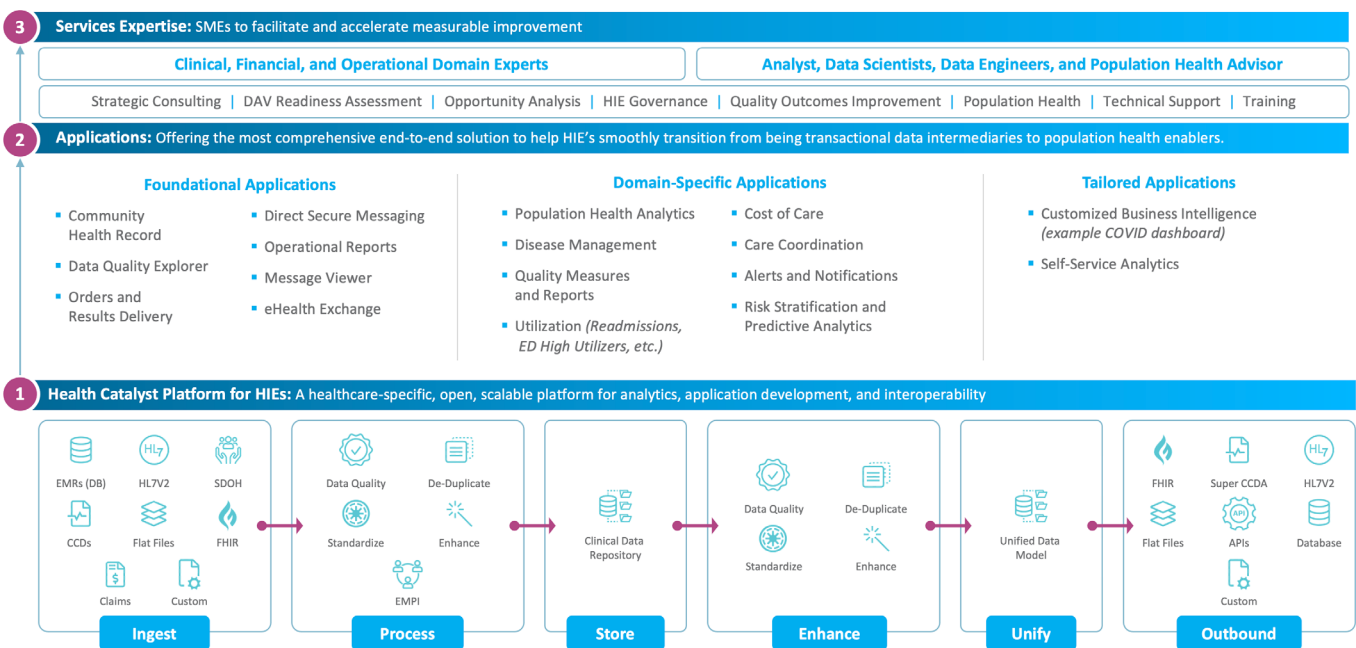

Overcome Market Challenges with Ninja Universe™

It is estimated that upwards of [524 million CCDs](#) are received by our nation’s HIEs each year. With the demand for longitudinal data increasing, KPI Ninja by Health Catalyst brings analytics to the forefront so you can unify record-breaking amounts of data for downstream stakeholders.

“The combination of our strong client relationships and comprehensive data set with KPI Ninja’s advanced technologies help assure that customers feel the value of the health information exchange infrastructure.”

STEVE ROTTMANN, CHIEF OPERATING OFFICER AT WISHIN.

Outbound capabilities are mission-critical to HIEs, and here’s how Ninja Universe delivers value in real time with a market-leading comprehensive community health record, built-in data quality capabilities, and easy-to-use user interface for self-service.

Value of Ninja Universe:

REDUCE TIME TO VALUE

- Reduce time to value with built-in source connectors, including FHIR.
- Enable users with built-in UI for easy self service.
- Support agile development through our modular platform to scale.

STRENGTHEN DATA ACCURACY AND TRUST

- Reduce variance and increase transparency with data quality profiling tools.
- Expedite time to conversion with built-in-house HL7v2 and CCD parsers.
- Transform data into standard formats (i.e., ICD10, RxNorm) to strengthen the data set holistically.

FUTURE-PROOF THE BUSINESS MODEL

- Support your population health goals with over 270 quality measures, including HEDIS and eCQM NCQA-certified measures
- Support QCDRs in programs like CPC+, MIPS, etc. to provide a 360-degree patient view to support better clinical care.

Benefit of Ninja Universe:

NCQA DATA AGGREGATOR VALIDATION (DAV) PROGRAM

KPI Ninja by Health Catalyst is a Certified Data Partner as part of the [National Committee for Quality Assurance's \(NCQA\) Data Aggregator Validation \(DAV\)](#) program. This certification helps organizations validate data streams faster and more easily, creating a competitive advantage amongst connected communities.

- Data enhancements with a robust terminology server and customized normalizations
- Ability to generate CCDs that conform with NCQA's Implementation Guide
- Support the creation of a Clinical Data Repository, which acts as the foundational layer for the DAV program requirements

“KPI Ninja brings technical expertise and innovation that directly supported our success in achieving DAV status for WISHIN. They are a leader in advancing value-based care, and we are proud to partner with KPI to enable better health outcomes.”

JOE KACHELSKI,

CEO at WISHIN

Why Health Catalyst

Unlike other solutions, KPI Ninja by Health Catalyst™ is exclusively focused on HIEs through people, process, and technology solutions proven to transform raw data into measurable value. Our modular solution enables our HIE clients to engage where they are, and scale as needed. Our relentless focus on high quality data is fundamental requirement for population health, and we have a robust set of integrated applications to support any HIE on their journey to support healthier populations either through improved quality performance metrics or other population health programs.
